Rely on us for...

Trusted Advisors

Our knowledgeable team can assist in navigating today's changing health care landscape through:

- *Revenue Enhancement*
- *Cost Containment*
- *Staff Training and Support*
- *Practice Education*
- *Technology*

Price Integrity

We are highly competitive with our pricing and strive to maintain prices through the development of purchasing plans, GPO programs, and by delivering the best value for your practice.

Guaranteed Fast Delivery

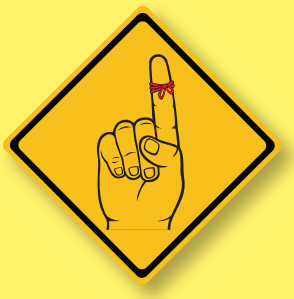

Orders received by 5 PM local time are shipped the same day. Your products arrive within 24–48 hours in most areas.

Vaccines, Pharmaceuticals, and Diagnostics

We supply every adult and pediatric vaccine recommended by the ACIP. In addition, we can fulfill your flu vaccine needs with our Worry-Free Guarantee Influenza Vaccine Program. Our pharmaceutical and diagnostic solutions include brand names, a complete line of generics, and Henry Schein Brand options.

Practice Solutions

A complete array of services, from Technology Solutions to Practice Marketing, is available to help you achieve your practice goals.

Medical Tip:

As you prepare for 2015, are you appraising your service and treatment portfolios to strategically increase practice revenue? To lessen the impact of capital spend, maximize your $25,000 Section 179 tax incentive and explore leasing opportunities.

Ask your Henry Schein Sales Consultant about financing options, or to request a consult for a practice expansion, upgrade or new build-out, visit: www.henryschein.com/requestinfo

SIEMENS

Clinitek Status+ Urine Analyzer

Provides convenient point-of-care testing with improved data integrity for more confidence in the results. Simple, fast, and accurate testing produces a result in about 60 seconds. Status analyzer can process basic urine strips, ratio tests, and hCG cassette tests. Full alphanumeric keyboard, easy-to-use touch-screen display, and automatic strip identification make this unit convenient to use. Eliminates need for visual reading, timing errors, and transcription errors. Memory to store 950 patient records. Future-ready for EMR when you are.

Alere™ Cholestech LDX® System
Complete Lipid Profile, Glucose
Lab-accurate lipid profile, glucose, ALT, AST, and hs-CRP results in about 5 minutes* from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived**
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between healthcare providers and patients

#10-959, Analyzer
(738-2917) .....ea
Contains: 1 of each: analyzer, printer, power supply, starter pack, optics check cassette, printer cable, user's manual, procedure manual & training video. Starter pack contains 200 lancets, 200 capillary tubes, 200 capillary plungers, 1 Minipette pipette, 50 pipette tips, 1 accessory tray & 1 fingerstick tip pad.

CoaguChek XS® System

PT/INR Monitoring Solution

The next generation in point-of-care prothrombotin (PT) and international normalized ratio (INR) testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that health care professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single-test chamber.

- CLIA waived
- Neutralizes therapeutic levels of heparin and LMWH
- INR corrected for hematocrit within specified range; manage a broad array of patients with a single device
- Small sample size (10 µL) for easy dosing
- Strip allows dosing from either top or side for simple blood application
- Small, battery-powered, handheld meter for portability and efficiency
- Onboard controls; no external QC necessary
- Auto-on with strip insertion and auto-off capabilities
- 18-month strip shelf life; no refrigeration needed
- **Made in the USA**

NEW! Now Available!

FREND™ System
This quantitative immunoassay analyzer utilizes disposable kits to provide in-vitro diagnostic results. The accurate, automated testing procedure—a simple, 3-step operation—provides results in 4 minutes. No need to batch your sample—run when you are ready. This fully automated device is equipped with an easy-to-use touch-screen interface. The FREND™ is compact and lightweight, allowing for portability.
- With electronic code-chip calibration, there's no need to run liquid calibrators
- Daily electronic system QC control takes only 1½ minutes
- Controls run a minimum of once a month

(455-0011).....ea

PSAPlus Immunoassay Test
The PSA Plus cartridge is designed for insertion into the FREND™ System. It measures the level of prostate-specific antigen (TPSA) to aid in the diagnosis and to monitor (or manage) patients with prostate cancer. Provides fast and accurate quantitative in-vitro diagnostic of the protein in human serum or plasma based on the lab-on-a-chip technology.
- Test can be used with either plasma or serum samples
- Maximum reaction time: 4 minutes

PSA Plus Immunoassay Test
(455-0013).....25/box

HORIBA Medical

ABX Pentra 400 Analyzer Clinical Chemistry System

A compact, benchtop, clinical chemistry analyzer. Its autonomy and continuous loading provide enhanced productivity in a user-friendly environment. This very precise optical system meets the requirements of highly accurate photometric measurement. An extensive panel of liquid reagents simplifies workflow. Horiba presents a range of ready-to-use reagents in a single format.

- Up to 420 tests per hour with the ISE module
- 55 on-board assays with backup availability
- Save valuable time: control all of your operations from the main screen (system, reagent, and sample status), and easily upload target values for calibrators and controls
- Secure data management: Westgard multirule QC procedures with up to 3 default controls, full QC program stores up to 12 months of control history, Levey-Jennings, and statistics
- Conduct high-quality analysis: single-use reaction cuvette performs sensitive tests and all latex assays, high-performance mixer design mixes in minimal time without contaminating, and test-sequence setting program features an incompatibility function
- Control cost: optimized number of tests per cassette and limited calibrations

BECKMAN COULTER

Ac•T diff2™ Hematology Analyzer

Each analyzer brings the added convenience and safety of a closed-vial sampling as standard. This fully automated 16-parameter or 18-parameter system offers a CBC and COULTER® histogram differential, providing all of the functions that make producing results fast, accurate, and easy.

- 16-parameter CBC with three-part differential
- Target volume: ideal for performing 1–100 CBCs a day
- Closed-vial sampling accommodates a variety of collection tube sizes
- Automated probe wipe safely cleans probe
- Small 18-µL sample size in either closed-vial or open-vial modes
- Compact: only 2 square feet of counter space required
- Efficient data management meets laboratory needs
- Automated quality assurance functions improve productivity
- Controls and calibrators designed for closed-vial sampling
- Zero routine maintenance requirements and high system reliability help contain cost

SIEMENS

Immulite® 1000 Immunoassay System

Small benchtop immunoassay analyzer. The extensive menu, low cost of operation, reliability, and ease of use makes this system a great choice for laboratories with low-volume immunoassay tests.

Dependable operation:

- Throughput up to 120 tests per hour
- Reliability allows laboratories confidence in assay turnaround times
- Cost of ownership is low due to minimal service, operator interventions, and operator time
- **Improved laboratory efficiency:**
- Few consumables
- Daily maintenance in less than 10 minutes
- Sample and reagent level sensors
- Easy entry of assay parameters, expiration dates, and calibration adjustment intervals
- Integration of the computer, keyboard, and monitor provide a consolidated footprint
- **Flexible solutions:**
- Turbo assays (Troponin I, CK-MB, Myoglobin, Intact PTH, and HCG) allow results in 15 minutes for critical tests
- 12-position reagent carousel

*Does not contain any sulfur-based accelerators such as thiurams, carbamates, thiazoles, guanidine or thioureas.
**Tested for use with the following 9 chemotherapy drugs: Vincristine Sulfate, Cyclophosphamide, Doxorubicin Hydrochloride, 5-Fluorouracil, Methotrexate, Etoposide, Paclitaxel, ThioTEPA and Carmustine.

Pick how you click.

With 3 ways to activate and a broader range of sizes than most other brands, SurGuard®3 is the industry's most adaptable safety needle. Add separate thumb and finger grips, unequalled sharpness,* and competitive pricing, and you'll understand why we say SurGuard®3 is the one needle that fits *every* clinician's style.

Plus, SurGuard®3 has the sharpest needles among major brands tested.*

- 10% sharper than similar needles from other leading brands
- More comfortable injections for patients

Bottom line: No matter what you're looking for in a needle, you're looking for SurGuard®3.

3M Health Care

Innovative solutions for better wound care

3M™ Coban™ 2 Layer Compression System

Engineered to stay in place and deliver comfortable, effective therapeutic compression.

- Innovative materials enable the system to be used for all patient types, sizes, shapes and lifestyles
- Designed to be applied at full stretch, reducing application variability for consistent, reliable compression every time
- Provides sustained compression for up to seven days
- Thin lightweight design allows patients to wear normal footwear
- Easy and fast to apply

3M™ Tegaderm™ Superabsorber Dressing

Superabsorber dressing that absorbs and retains moderate to high exudate — even under compression.

- Versatile for a variety of wounds with moderate to high exudate levels
- Helps prevent maceration of the wound edges
- Reduces frequency of dressing changes
- Provides patient comfort

3M™ Tegaderm™ High Performance Foam Adhesive Dressing

Helps meet the challenges for low to high-exudating wounds.

- Superior fluid handling reduces the risk of desiccation and maceration
- Watertight seal provides a waterproof liquid, bacterial and viral barrier*
- Longer wear times reduce disruption to patients' daily lives
- Patented spoke delivery system for easy, one-handed application

3M™ Tegaderm™ Absorbent Clear Acrylic Dressing

A unique transparent wound dressing with fluid handling capacity.

- Transparent dressing allows for wound monitoring without changing the dressing
- Clear design takes the guesswork out of application over the wound
- Novel acrylic polymer pad technology designed to handle low to moderate wound drainage
- Barrier to external contaminants, body fluids, bacteria and viruses*

© 3M 2014. 3M, Coban and Tegaderm are trademarks of 3M.

Please contact your Henry Schein sales representative for details on these products and promotions from 3M.

* *In vitro* testing shows that the transparent film provides a viral barrier from viruses 27 nm in diameter or larger while the dressing remains intact without leakage.

3M

Co-Flex® NL

LATEX FREE

U.S. Patent Nos. 5,762,623 & 6,156,424 European Patent No. 0839222

- Easy to apply and remove

Gebauer Company

Accu-Stream 360 Cans
3½-oz Ethyl Chloride Can
Accu-Stream 360 cans offer an innovative delivery system for Gebauer's Ethyl Chloride. The new actuator is a one-touch system that allows customers to dispense ethyl chloride from any angle—even upside down—with extreme accuracy. There is also a safety locking ring that will prevent accidental dispensing during shipping and office storage.

Sinsational Smile complete system

{ Includes: Accelerator Light, 24 treatment trays and 24 Home Care Pens, Item #334-0038 }

Pays for itself in only 17 treatments at $129 per treatment!

Sinsational Smile
A smile so bright, it's sinful.

Sinsational Smile Is the Most Asked About Cosmetic Whitening Procedure in the Country

Incorporating this 20-minute treatment keeps patients returning to your practice for ALL of their cosmetic and aesthetic surgery needs. Practices utilize this service to:

- ➢ Reward loyal patients for referrals and repeat business
- ➢ Promote seasonal campaigns and special events
- ➢ Upsell and bundle of procedures and services
- ➢ Optimize wait times before starting procedures
- ➢ ***GENERATE MORE REVENUE***

The Sinsational Smile System features:

- ➢ The first and ONLY green-certified whitening system
- ➢ 1-minute prep time – whitening tray is PRELOADED
- ➢ Each preloaded tray contains a proprietary blend of 25% carbamide-peroxide whitening gel
- ➢ Gel contains organic menthol, which acts as a soft-tissue soother
- ➢ Utilizes an LED (non-UV) accelerator light to speed up process
- ➢ Each treatment includes a complimentary take-home whitening pen that is good for up to 60 applications
- ➢ Treatment can be performed by anyone in the office: physician is not required to perform a self-administered cosmetic treatment
- ➢ Requires no pretreatment gels or anesthetics

ROI Based on a $30 Cost with $129 Treatment Fee					
Procedures Per Week	**1**	**3**	**6**	**9**	**12**
Average Weekly Revenue	**$100**	**$300**	**$600**	**$630**	**$840**
Annual Practice Revenue	**$5.2K**	**$15.6K**	**$31.2K**	**$46.8K**	**$62.4K**

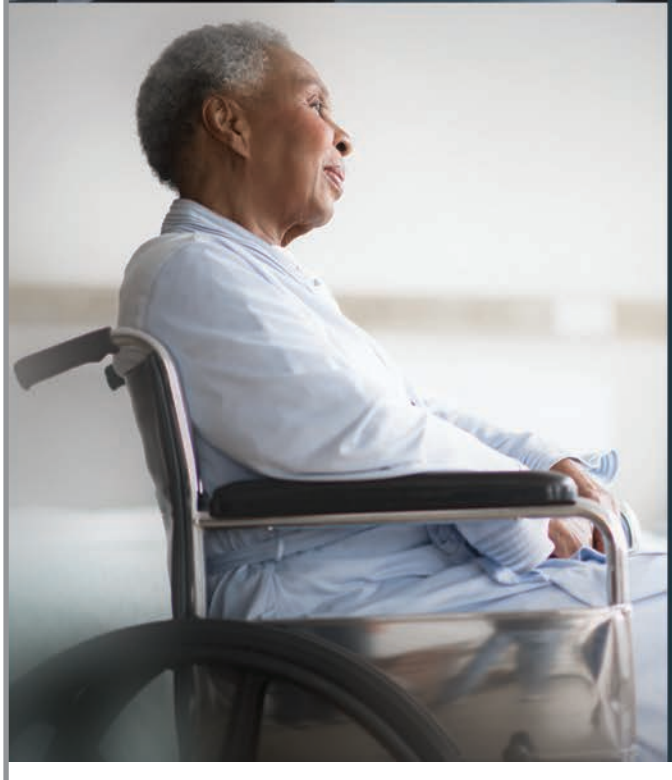

The complete **Sinsational Smile System** comes with enough consumables to perform 24 procedures. As modeled above, the original investment can paid off in just 17 treatments!

SureTemp® Plus 690 Electronic Thermometer

Combines the speed of ear thermometry with the accuracy and reliability of traditional oral thermometry. Takes fast, 4–6-second oral temperatures, 10-second pediatric axillary and rectal temperatures, and 15-second adult axillary temperatures.

- Accurate to within ± 0.2°F (0.1°C)
- Interchangeable, removable probe wells to reduce the risk of cross contamination
- Large LCD that can display temperatures in Fahrenheit or Celsius
- Last-temperature recall
- Mode selection and recall buttons
- Four different temperature modes
- Convenient storage for 25 probe covers
- Takes about 6000 readings on 3 AA batteries (included)

BURDICK

Assurance 50® "Fade-Resistant" Papers
Single Channel, Red Grid
Unique line of thermal recording media. Look and feel is similar to standard thermal charts, but difference is in acid-free base paper and patented chemical thermal coatings. Combination of these 2 elements works to deliver 50 years of ECG image life without worry or fading. Thermal chart contaminants such as UV light, PVC, alcohol, adhesive tape, and electrode creams are no longer of concern. No special care or handling is required. Guarantee clear, indelible original records, year after year.

BURDICK

Burdick ELI™ 250c 12-Lead Resting Electrocardiograph

Compact and lightweight, the ELI™ 250c electrocardiograph provides comprehensive functionality, with 8½" x 11" or A4 paper, in an easy-to-use, portable device. High-resolution color display provides real-time preview of 12-lead ECG and post-acquisition review of acquired ECG. Widely recognized Mortara resting ECG interpretation algorithm uses gender-specific and adult and pediatric criteria to provide a silent second opinion for resting ECG interpretation. ELI 250c offers a choice of either the innovative WAM™ wireless acquisition module or the AM12™ acquisition module. Both include replaceable lead wires, lead fail indicator, and remote control with buttons for ECG acquisition and rhythm printing. ELI 250c automatically selects and displays the best 10 seconds of ECG signal from the 5-minute segment of internal full disclosure, reducing clinical review time and eliminating the need for repeat ECGs. Alphanumeric elastomer keyboard features dedicated "one-touch" buttons for ECG acquisition, rhythm printing, and ECG transmission/order retrieval. Experience the benefits of bidirectional communication via USB, USB memory stick, internal modem, LAN, or wireless LAN with Mortara's E-Scribe™ and Athena products, as well as third party EMR, HIS, and PACS systems via XML, PDF, UNIPRO, and DICOM®.

- **Portable solution.** Compact and lightweight, the ELI 250c electrocardiograph provides comprehensive functionality, in an easy-to-use, portable device.
- **Best 10 technologies.** Capture the best 10 seconds of ECG data from system memory, reducing the need for repeat ECGs.
- **Wireless data acquisition.** Increase workspace flexibility by gathering 12-lead data without the need for a tethered cable.
- **Connectivity your way.** Multiple options ensure patient data transfers easily from the ELI 250c to the location of our choice.

Connectivity solutions that work.

IQvitals® is designed to improve efficiency and reduce transcription errors with automated capture of blood pressure, temperature, SpO_2 and pulse rate.

IQvitals®

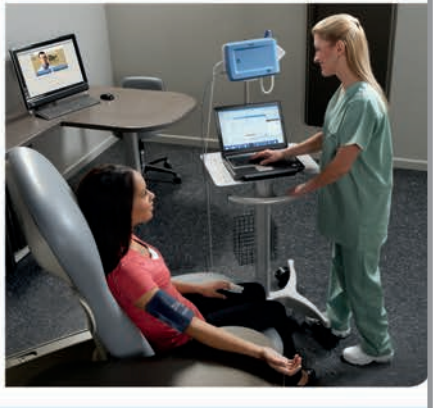

- Intuitive touch screen user interface
- Seamless connectivity with EHR/EMR or IQmanager®
- Lightweight and portable
- Long battery life
- SpO_2 and digital scale options

Take advantage of special savings on Midmark IQvitals® during the Midmark Barrier-Free® Promotion!

For more information, call **1-866-723-8331** or visit **midmark.com/DiagnosticsOctSale.**

HENRY SCHEIN®

NYLON BLACK MONOFILAMENT NONABSORBABLE SURGICAL SUTURES

- Precision-honed needle: offers surgeon easier penetration and precise tracking
- Finely crafted swaged needles: tissue trauma is reduced because swaged needles are used only once and then discarded; dull needles are eliminated
- Sterile packaging: ensures sterility
- Unique, see-through packaging: permits positive identification without the necessity to touch or otherwise contaminate suture
- Wide assortment of suture material (Silk–Black Braided, Gut–Plain, Gut–Chromic, Polyester–Green Braided): practitioner can select from several suture materials

HENRY SCHEIN®

GUT ABSORBABLE SUTURES

- Superior point: Needles are honed with a unique multi-edged point to provide greater ease of penetration and precise tracking
- Finely crafted swaged needles: Needles are drilled for a seamless needle/suture juncture, providing a smoother transition with less tissue disruption
- Superior packaging: Unique double-sterile barrier and see-through packaging permit positive identification without the necessity to touch or otherwise contaminate the suture
